Front View (Door open)

Dustproof Filter Exchange (Exploded view)

1. For your safety, please turn off the power before replacing the filter.
 2. To prevent the influx of foreign substances, ensure to keep the surrounding areas clean.
 3. Both the front and rear of filter could be different depending on inserting direction.
Please refer to the figure below, and proceed the replacement with careful attention to the color of filter frame and direction.
- * The recommended Dustproof Filter replacement cycle is every eight months, and the replacement cycle may vary at the installation environment.
